

What to Expect

Before your visit

We start with a conversation, which allows us to understand your history, your challenges, and your goals.

The day of your visit

Typically, the day begins with comprehensive laboratory tests taken in the executive health suite. You will then be escorted to each component of your executive health exam.

Your day will conclude with a meeting with your executive health physician to review all results from the day and determine any next steps.

After your visit

We will give you a detailed report of your test results and consultations following your executive health exam. The report will include our team's conclusions and recommendations for follow-up care. It will be delivered via Piedmont MyChart, mail, or both.

If additional care is needed based on the results of your executive health exam, we will work to coordinate your needs across the Piedmont Clinic network and ensure that all follow-up appointments are made at a location convenient to you. We are transforming your access to great care, to bring you a hassle-free, integrated experience.

Dedicate one day to your health

Piedmont Executive Health Program

Real change lives here

Real change lives here

We're empowering you to prioritize your health with a hassle-free, one-day comprehensive evaluation at Georgia's largest health system. The Executive Health Program at Piedmont will give you a full year's worth of preventive health care services in a single day.

Program Benefits

Care Just for You

Our team will:

- Provide a comprehensive, in-depth view of your current health
- Identify, reduce and eliminate potential health risks
- Improve your future health and well-being

Exceptional Experience

From tailoring and scheduling your day with us, to providing you with a personal campus navigator, coordination of follow-up care and a post-visit follow-up call with your executive health physician, we transform your access to personalized, quality care.

A Year's Worth of Health Care in One Day

The Executive Health Program makes it convenient to streamline all of your health care needs by combining your care into a one-day comprehensive appointment that fits into your challenging schedule.

Piedmont Clinic Network

Our physical locations include 24 hospitals, 1,875 Piedmont Clinic physician practices and nearly 3,200 Piedmont Clinic members, all of which can share information. No matter where you live, you'll easily find follow-up care in your community that your navigator will help you schedule.

Our Credentials

Piedmont is a nationally renowned health care system with the highest standards for quality care. Our programs consistently receive recognition for excellence, such as:

- A nationally recognized Top 100 Program for High-Quality Cardiovascular Care
- 15 DNV-accredited stroke centers
- A Center of Excellence (COE) for pulmonary conditions; named one of Americas' 100 Best Hospitals for Pulmonary Care

Our Services

Your executive health exam will be personalized based on your history and needs and may include the following screenings:

- **General Health**
- **Comprehensive Lab Analysis**
- **Immunization and Family History Review**
- **Cardiac and Pulmonary Health**
- **Cancer Screenings**
- **Visual and Auditory Health**
- **Additional Tests and Services**
